

Okanagan Landing News

WINTER 2017

President's Report:

Merry Christmas to everyone in our unique Okanagan Landing Community from myself and your Board of Directors! When a good "old" childhood friend of mine moved here a few years ago from Calgary, I gave him some solid Okanagan advice: "Don't be lazy, sell your over-powered snow blower before you pack because we don't get enough snow to use it and therefore no one here would even buy it from you at this end!" Well, here I am looking at upgrading to an even more powerful snow blower for the third time, fourth if you count my man-powered worn-out shovels. We do appreciate our amazing climate here, but sometimes either forget or don't want to admit that there can be a fair amount of snow in our beautiful valley. Bragging about dumps of snow up at Silver Star Mountain resort is only part of the story I'm starting to admit. Seems like Forest might be right if he were to compare our weather to a box of chocolates "you never know what you might get". Spring rain/heat/flood, summer heat/fire/smoke, fall freeze/snow/melt... It's good to appreciate the four distinctive seasons that we do have here and Paddlewheel Park is an amazing gem to visit and enjoy through all of them. Please consider this as your personal invite to drop by during a different time of year than you are accustomed to. The sight and sound of our Lake is beyond description.

We had a good turnout at our Annual General Meeting last month and are appreciative for two more local community members joining our very active volunteer Board. Welcome to Kathleen and Charlene! Thank you everyone who was able to attend and placing your trust in us to be good stewards of Paddlewheel Park.

Wishing you, your family, friends and Okanagan Landing neighbours a super Merry Christmas!

Verne Schier
